

Instead, the entire course is planned out for you in Moodle. The most important thing to note about the course is that there are no traditional exams! There are no tests, midterms, final exams, timed exams, etc. Instead, your grade will consist of grades earned working on problem sets (60%), online work (20%), and online discussions (20%). All of your work can be completed in an “open book” setting.

Each week, a checklist of tasks will be posted. It will look very similar to the following example.

[illegible]

Week 1 Checklist

- Readings

Ch. 10.2 Page 700 – 709

Ch. 10.3 Page 710 – 718

Ch. 10.5 Page 729 – 737

- Review:

PowerPoint presentation for Ch. 10.2

PowerPoint presentation for Ch. 10.3

PowerPoint presentation for Ch. 10.5

- Watch:

Video for Ch. 10.2

Video for Ch. 10.3

Video for Ch. 10.5

- Discussion:

Post original response to the discussion question for this week.

Reply to two other posts for this week.

- Complete assignments found at cengage.com for Ch. 10.2, 10.3, and 10.5

- Complete Problem Set #1

Problem Set #1 Ch. 10.2 pg707 #5-10, 23-28 Ch. 10.3 pg715 #5-8, 9-13, 23-28, Ch. 10.5 pg735 #3-8, 27 – 34 (use desmos)

Due: June 13, 2020

Students are required to write out their full solutions to the problems. A scan of the complete work is required to be uploaded to Moodle by the due date.
