Hi Shyam,

I don't quite follow your first question. Quizzes and exams will need to be completed one question at a time, and submitted once at the end. They are in MyMathLab. This is the same setup we had with Calc II exams over the Summer.

I have *tentative* dates for quizzes and exams. I will give them below, but please be aware that they are still tentative until the semester begins. I don't anticipate needing to change these dates between now and the beginning of the semester, but they are do remain tentative at this time.

- **Quiz One (Sections 2.1-2.6): Wednesday, September 30th**
- **Quiz Two (Sections 3.1-3.10): Wednesday, October 21st**
- **Quiz Three (Sections 4.1-4.4): Friday, November 13th**
- **Quiz Four (Sections 3.11, 4.5, 4.6): Wednesday, December 2nd**
- **Quiz Five (Sections 4.9, 5.1-5.5): Wednesday, December 16th**

- **Midterm Exam (Covering Chapters 2 and 3 (except 3.11)):** Tuesday, 10/27 opening at 8:00AM Eastern and closing on Wednesday, 10/28 at 8:00PM Eastern (must start by 6:00PM Eastern on 10/28 to ensure having two hours)
- **Final Exam (Covering Section 3.11, Chapters 4 and 5):** Tuesday, 12/22 opening at 8:00AM Eastern and closing on Wednesday, 12/23 at 8:00PM Eastern (must start by 6:00PM Eastern on 12/23 to ensure having two hours)

Regards,  
Alex
